

## DONCASTER NORTH CITY LEARNING CENTRE

The centre provides an approachable, friendly and modern environment in which to hold meetings, learn and work with a range of exciting new technologies. These technologies can be used in creative, innovative and inspiring ways to take business and education further than previously possible.

- High quality, purpose built, air-conditioned modern accommodation.
- A very high level of ICT resources and facilities provided through a network of Windows PC's & Apple Mac Computers.
- Access to a variety of software, hardware and specialist courses not normally available to business and education.
- Use of the best teaching and learning technologies – including interactive white boards, video editing, video conferencing.
- Training by experienced specialist educators to deliver courses and provide resources and assistance on a diverse range of subjects.
